

Device as a Service

Productive, Secure and Cost Effective Devices

Increase Productivity

Ensure your workforce are as productive as they can be, by providing them with modern, efficient and reliable **Microsoft Windows 10** or **Apple** laptop devices.

EACS support services reduce the risk of expensive downtime by being on hand to assist your users with their technical problems.

Increase Security

With the EU General Data Protection Regulation (GDPR) enforcement deadline set for 25th May 2018, it has never been more important to ensure that the data on your devices is well protected.

Security is not just a “tick-box” exercise - it is something that requires regular and on-going maintenance that can be costly for organisations to manage.

EACS can ensure that every device is patched, encrypted and protected against malware; giving you peace of mind and allowing you to concentrate on using the device for its intended purpose.

Simplify and Reduce Costs

A flexible and expandable subscription allows for a single monthly figure to cover the hardware, the security features, the support and the maintenance of the devices for the duration of the agreement.

Turn your capital expenditure into more manageable and predictable operational expenditure, whilst also removing costs for expensive support and security systems.

Need more devices?

- No problem, simply append them to the monthly contract.

Need your device a little longer?

- No problem, simply arrange to extend the contract month-by-month.

Want a newer device?

- No problem, either get a new device when you renew the contract, or investigate upgrade options mid-contract.

Freedom of Choice and Flexibility

Prices range from **£40 to £75 per device per month**, depending on the device, peripherals and services selected.

STEP 1:

- **Select your device:**
 - ◇ Range of vendors and models
 - ◇ Windows 10 or Mac OS X
 - ◇ Peripherals also available
- EACS can assist with selection
- User training also available

STEP 2:

- **Select your services:**
 - ◇ Support
 - ◇ OS patching
 - ◇ Application patching
 - ◇ Anti-virus
 - ◇ Device control
 - ◇ Web protection
 - ◇ Encryption
 - ◇ Anti-ransomware
- All fully managed

BENEFITS

- Single monthly payment
- Includes devices and services
- Expandable contract
- Scales up with your business
- Easy renewal
