UPDATE FROM JO DONNELLY

Welcome to the second edition of EACS news- the non-technical overview of what’s what in the world of EACS and IT in general. We hope that you find this useful. Our plan is to issue this every two months. If you have any questions or feedback, please let me know Jo.donnelly@eacs.com or 07710 087762.

Things to be aware of.....

OPTIMISE IT 2019

We held our annual IT showcase on the 12th June at Silverstone. With over 40 exhibitors, a tech hub, innovation area and fun zone this was our best event ever! Please watch this space for news of next years event. <https://www.eacs.com/optimize-it/>.

NEW STARTERS

EACS continues to strengthen its technical team and is delighted to welcome John Blackwell, Technical Consultant. John has 9 years’ technical experience and has specialties in NetApp, VMware, windows technology and Disaster Recovery processes.

EACS is also excited to welcome Ed Watts, Client Manager to the Sales team. Ed comes with 20 years’ experience in a range of IT infrastructure specifically Connectivity, RPA and Cyber Security.

I am very proud of EACS’ inclusion in G-Cloud 11- our expansion of services and our focus on quality and value for money are clearly demonstrated through our continued inclusion- Kevin Timms CEO EACS

EACS ATTAINS ISO22301 CERTIFICATION

EACS continues its journey to ISO certification and successfully attained ISO22301 in Business Continuity. This award provides our customers with the confidence and peace of mind that our current Business Continuity process and procedures will enable us to continue to operate effectively and efficiently in the event of an incident or disaster. This is the 6th ISO Certification we have attained over the last 8 months. We are not stopping there and have now initiated a plan to attain ISO20000 certification in IT Service Management by the end of 2019 which will further enhance the delivery of our growing portfolio of support services.

KEVIN TIMMS SPEAKS TO CRN

Kevin provides CRN with insight into the IT industry and the company strategy for EACS. Please read the article here: <https://www.eacs.com/eacs-md-on-ma/>

DID YOU KNOW..

EACS offers a fully managed service for server infrastructure which includes one of the most unliked but extremely important tasks for any IT Department, monthly patching. This integral part of the service is extremely popular with both the IT Support Team who often see this as a chore, and the business with the reduction in overtime costs incurred due to the working needing to take place outside of normal working hours. Talk to us to learn more.
