

# The Power Platform

## Solve your Business Challenges with Power Apps

Apps & Data

### Why Power Apps?

- Sophisticated line-of-business apps
- Cloud based and secure
- Connect to over 300 data sources
- Connect to custom and on-premise data sources
- Connect to Cognitive Services e.g. text analytics, language translation
- Integrate Power BI reports and run backend workflows with Power Automate
- Fully customisable
- Interactive and accessible on any device in real-time

### Benefits for your departments

- **HR**—Enable users to submit personal development goals, manage holidays or create a feed of the latest HR news
- **Finance**—Data analytics for simpler budget management & expenses systems with approval workflow
- **Sales**—manage customers and projects directly when out on the field and quickly submit leads
- **Support**—Help desk and knowledge based apps, asset management, simplified on/offboarding processes

Overcome business challenges at any level with custom applications which will digitally transform your way of working.

With Power Apps, **eacs** can build web and mobile apps which overcome your obstacles quickly and cost effectively. With security and governance controls such as single sign-on and easy integration across different platforms and technologies, **eacs** can help to turn your ideas into reality.

### What are Power Apps?

Power Apps are applications which can be accessed or embedded in a variety of locations and provide a user-friendly interface, helping employees easily access your business data such as M365, external connectors and rest API data.

With the ability to connect to a multitude of sources and built in controls such as cameras, locations and Artificial Intelligence, Power Apps allows us to create solutions which take advantage of the latest and greatest technology.

Power Apps Portals lets you provide a unique log-in area for your external customers and display dashboards of their valuable information, whilst also providing a space for them to complete forms, raise requests, get help and much more.

### How can we help?

The **eacs** apps and data team can turn your data visions into reality and create a solution which simplifies even your most complex business process.

From challenging data relationships to bringing multiple sources together in one place, cumbersome and time-consuming tasks will become a thing of the past with **eacs** and the Power Platform.

**eacs is the expert in the delivery of IT services to the mid market. It is an award winning and trusted provider of IT solutions and managed services to a wide range of UK organisations of all sizes.**
