

# DEVICE AS A SERVICE

## Productive, Secure & Cost Effective Devices

Managed Services

### Features

- All devices are patched, encrypted and protected against malware.
- Simplify and reduce costs.
- Scales up with your business and scales down

### Advantages

- Easy renewal
- Allows you to concentrate on using the device for its intended purpose
- Simply add and remove devices on the monthly contract

### Benefits

- Single monthly payment
- Includes services to the device
- Fully expandable contract to scale with your business as you need it

### Increase Productivity

Ensure your workforce is as productive as they can be by providing them with modern, efficient and reliable **Microsoft Windows 10** or **Apple** laptop devices. **eacs** support services reduce the risk of expensive downtime by being on hand to assist your users with their technical problems.

### Increased Security

Since the EU General Data Protection Regulation (GDPR) came into force on 25th May 2018, it has never been more important to ensure that the data on your devices is well protected.

Security is not just a “tick-box” exercise - it is something that requires regular and on-going maintenance that can be costly for organisations to manage.

**eacs** can ensure that every device is patched, encrypted and protected against malware; giving you peace of mind and allowing you to concentrate on using the device for its intended purpose.

### Simplify and Reduce Costs

A flexible and expandable subscription allows for a single monthly figure to cover the hardware, the security features and the support and the maintenance of the devices for the duration of the agreement.

Turn your capital expenditure into more manageable and predictable operational expenditure, whilst also removing costs for expensive support and security systems.

#### Need more devices?

- No problem, simply append them to the monthly contract.

#### Need your device a little longer?

- No problem, simply arrange to extend the contract month-by-month.

#### Want a newer device?

- No problem, either get a new device when you renew the contract, or investigate upgrade options mid-contract.

### Freedom of Choice and Flexibility

Please call **eacs** now for a no-obligation quotation for devices that meet your requirements and a service that suits your budget.

# // ONE TEAM MAKING IT WORK
