

# The Power Platform

## Improve efficiency and save time with Power Automate processes

Apps & Data

### Why Power Automate?

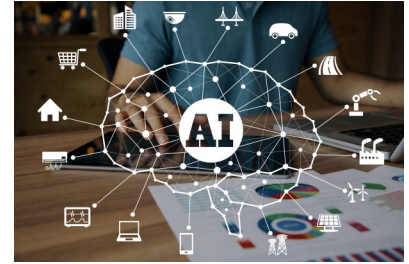

- Reduced risk of human error
- Cloud based and secure
- Connect to over 300 data sources and custom connectors with any publicly available API
- Notifications keep employees in the know and complete tasks quickly
- Provides additional functionality to your Power Apps
- Easily migrate data between different systems

### Benefits for your departments

- **HR**—Approve employee changes & requests, publish internal content, analyse information (e.g. employee satisfaction) using cognitive services
- **Marketing**—Manage social media interactions & automate posts to target your customers at key times
- **Sales**—Convert sales queries into leads, automatically respond to customers, ensure your team are on track with reminder workflows
- **Support**—Handle equipment requests, employee on/offboarding processes, move data between systems with ease

Discover a better way to get things done across your organisation through digital and robotic process automation.

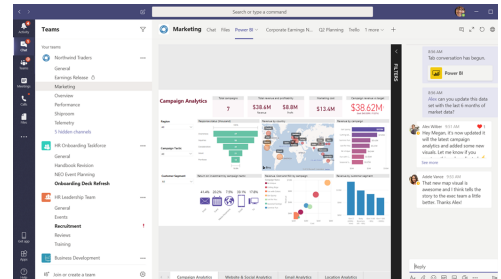

Whether it be complex approval systems involving various members of the business or simple alerts going to the correct people, **eacs** can build custom workflows to vastly increase efficiency and remove the risk of human error. By tying in Power Automate workflows with Power Apps, we can create a range of business solutions which are built to last and provide valuable data functionality to your business as and when you need it.

### What is Power Automate?

Previously known as Microsoft Flow, Power Automate is used to build automated workflows, allowing business processes to be handled swiftly at the click of a button.

By automating tasks which employee's face on a day-to-day basis, you can minimise manual and time consuming tasks and instead create more time for your teams strategic and creative work.

### How can we help?

Not only can we build Power Automate flows to increase efficiency for your business, at **eacs** we pride ourselves in thinking outside the box to explore where further improvements can be made to your processes.

Call us now to explore how we can build intelligent solutions to increase your employees productivity.

**eacs is the expert in the delivery of IT services to the mid market. It is an award winning and trusted provider of IT solutions and managed services to a wide range of UK organisations of all sizes.**
